

Merrimack Valley District Dental Society
Presents
Real World Dentistry 2010: Choices, Options and Alternatives
David Garber, DMD
Friday April 2, 2010

The changing world of today's dentistry requires the dentist to master new clinical techniques and to choose from an evolving choice of products and procedures. Care of the patient now requires an emphasis on increased predictability, simplicity, and timely care. This program will introduce you to new restorative and implant products and techniques that have proven to be effective in practice. You will learn how and when to implement each new technique, integrating innovative prosthetic systems with implants and simplified soft tissue procedures.

Dr. Garber will update the generalist and specialist alike on state-of-the-art technology and materials that are essential to your daily clinical practice. He will use a multi-media approach with computer simulation and video, which is designed for the whole dental team, including hygienists, assistants, and laboratory personnel.

Course objectives and topics include:

1. Accelerated crown preparation 2010
2. Innovative porcelain veneer techniques
3. Implant dentistry in your "day to day" practice
4. One-stage implants
5. Creative restorative systems—CAD/CAM and ceramometal
6. Simplifying your implant practice
7. Accelerating your implant restorative phase

The course will be held at the Andover Wyndham Hotel in Andover, MA on Friday, April 2, 2010. The session will run from 8:00 am to 4:00 pm. Continental breakfast and lunch will be served. Seven CE credits are given.

Registration fee is \$175 for dentists and \$95 for auxiliaries before March 26. After that date, fee is \$250 for dentists and \$125 for auxiliaries. Seating is limited.
