

INTRODUCING THE BEST DENTAL IMPLANT WARRANTY AVAILABLE

The only lifetime dental implant warranty to include compensation toward implanting surgeon's time

- The Smile Trust™ Dental Implant Warranty covers replacement implant and components*, as well as \$500 toward surgical time and up to \$500 for each implant for reimbursement of laboratory fees (see *Scope & Terms*).
- The Smile Trust Warranty applies to all Keystone Dental Implants.
- Show your patients how much you care about helping them protect their investment by offering them The Smile Trust for their dental implant.

*Keystone Dental product equivalent to the original product, including the implant, cover screw, healing abutment and prosthetic components actually installed on the original implant.

Helping you present implants with a new level of confidence

THE ONLY LIFETIME DENTAL IMPLANT WARRANTY TO INCLUDE COMPENSATION TOWARD IMPLANTING SURGEON'S TIME

The Smile Trust™ Dental Implant Warranty covers:

- **Replacement implant and components.**
 - Keystone Dental product equivalent to the original product, including the implant, cover screw, healing abutment and prosthetic components actually installed on the original implant.
- **\$500 toward surgical time.**
- **Up to \$500 for reimbursement of actual laboratory fees reasonably incurred.**

SCOPE & TERMS—

- Pricing—no additional cost; the lifetime warranty is provided as value added from Keystone Dental.
- When the implant is placed, the dentist receives a lifetime guarantee letter stating that Keystone Dental will cover the implant, cover screw, healing abutment, prosthetic components, \$500 toward surgical time, and up to \$500 for reimbursement of laboratory fees.
- When the implant is placed, record the implant type, date of surgery and lot number for tracking in the patient's file. Stickers with lot identification numbers are shipped with every implant; these are convenient to place in the patient chart, send to the restoring dentist, and to place on the patient's warranty card so that they can have it in the event that they relocate.
- Lifetime Warranty coverage begins after a six-month osseointegration period; if something fails during this six-month osseointegration period, the warranty does not apply.
- The warranty is conditional on the strict adherence to a regular examination and cleaning regimen that is prescribed by the restorative doctor. Patient compliance is required to fulfill the warranty program.
